PER LB.

Cherry Syrup

1 cup water
1 cup granulated sugar
1 cup fresh cherries

Put water, sugar, and cherries in a medium saucepan and bring to a boil.

Once boiling, lower heat and let mixture simmer for about 15 minutes until cherries are bursting and mixture has thickened. Strain syrup into a bowl, pressing down on the cherries with a wooden spoon or spatula to extract as much juice as possible. Keep syrup in bowl or pour into a mason jar and place in fridge to cool completely before using. Syrup will continue to thicken as it cools. Use for cocktails, ice cream or pancake syrup.
